

International Swiss Medical

Valid from 1 January 2025

The premium is age-related and will, therefore, be adjusted with respect to age on the first renewal date of the insurance after the insured's birthday. This means that regardless of your payment terms (quarterly, semi-annual or annual) the adjustment of premium due to the change of one age bracket to another will take place at the annual renewal of your insurance. If you have reached the age of 60 at the time of application, the premium will be increased. The insurance plan must be taken out before you reach the age of 80. A previous medical history may involve an increased premium, exclusion of cover or, in a few particular cases, a rejection of the insurance.* The premium rate will be based on the country of residence at the first day of the membership year (country of residence, for this purpose, is the country where the customer lives or spends most of their time).

* Your policy premium may be subject to Insurance Premium Tax based on your country of residence. If this is the case, the amount of any taxes, levies or charges will be shown on your premium notice. For more detailed information on any taxes in your country of residence, please refer to Bupa Global or your local representative.

** Renewals premium only: if you have reached the age of 60 at the time of the application, a premium loading will be added to the above rate.

*** From the age of 80: renewals only.

**** Only applicable for existing clients before 01.01.2004.

Due to regulatory restriction some products are not available in certain countries. Please contact your Bupa Global representative for more details.

International Swiss Medical

Valid from 1 January 2025

The premium is age-related and will, therefore, be adjusted with respect to age on the first renewal date of the insurance after the insured's birthday. This means that regardless of your payment terms (quarterly, semi-annual or annual) the adjustment of premium due to the change of one age bracket to another will take place at the annual renewal of your insurance. If you have reached the age of 60 at the time of application, the premium will be increased. The insurance plan must be taken out before you reach the age of 80. A previous medical history may involve an increased premium, exclusion of cover or, in a few particular cases, a rejection of the insurance.* The premium rate will be based on the country of residence at the first day of the membership year (country of residence, for this purpose, is the country where the customer lives or spends most of their time).

* Your policy premium may be subject to Insurance Premium Tax based on your country of residence. If this is the case, the amount of any taxes, levies or charges will be shown on your premium notice. For more detailed information on any taxes in your country of residence, please refer to Bupa Global or your local representative.

** Renewals premium only: if you have reached the age of 60 at the time of the application, a premium loading will be added to the above rate.

*** From the age of 80: renewals only.

**** Only applicable for existing clients before 01.01.2004.

Due to regulatory restriction some products are not available in certain countries. Please contact your Bupa Global representative for more details.

The premium is age-related and will, therefore, be adjusted with respect to age on the first renewal date of the insurance after the insured's birthday. This means that regardless of your payment terms (quarterly, semi-annual or annual) the adjustment of premium due to the change of one age bracket to another will take place at the annual renewal of your insurance. If you have reached the age of 60 at the time of application, the premium will be increased. The insurance plan must be taken out before you reach the age of 80. A previous medical history may involve an increased premium, exclusion of cover or, in a few particular cases, a rejection of the insurance.* The premium rate will be based on the country of residence at the first day of the membership year (country of residence, for this purpose, is the country where the customer lives or spends most of their time).

* Your policy premium may be subject to Insurance Premium Tax based on your country of residence. If this is the case, the amount of any taxes, levies or charges will be shown on your premium notice. For more detailed information on any taxes in your country of residence, please refer to Bupa Global or your local representative.

** Renewals premium only: if you have reached the age of 60 at the time of the application, a premium loading will be added to the above rate.

*** From the age of 80: renewals only.

**** Only applicable for existing clients before 01.01.2004.

Due to regulatory restriction some products are not available in certain countries. Please contact your Bupa Global representative for more details.

The premium is age-related and will, therefore, be adjusted with respect to age on the first renewal date of the insurance after the insured's birthday. This means that regardless of your payment terms (quarterly, semi-annual or annual) the adjustment of premium due to the change of one age bracket to another will take place at the annual renewal of your insurance. If you have reached the age of 60 at the time of application, the premium will be increased. The insurance plan must be taken out before you reach the age of 80. A previous medical history may involve an increased premium, exclusion of cover or, in a few particular cases, a rejection of the insurance.* The premium rate will be based on the country of residence at the first day of the membership year (country of residence, for this purpose, is the country where the customer lives or spends most of their time).
