Subscriptions rate will be based on the country of residence* at the first day of the membership year.

* Country of residence, for this purpose, is the country where the customer lives or spends most of their time.

How to calculate subscription charges

Finding your subscription is easy. There are six quick steps:

Step One	Find your customer's country of residence to establish the zone (eg France is in Zone 7).
Step Two	Go to the tables which are marked with the zone in the top corner. In the zone you will find three tables. One for Essential cover, one for Classic and one for Gold. Select the level of cover required for the zone.
Step Three	Find out the age the customer will be at the start of their membership, and the age of any others who wish to be included on the policy.
Step Four	Decide on the product option (eg if the customer wants a standard policy or wants to include an annual deductible).
Step Five	Decide on the frequency of payment, eg monthly, quarterly or annually.
Step Six	Look across the page for the age line and find the product option and payment choice which will give you the price.
