Troubleshooting & FAQs

Question	Answer

I've used the correct email but it isn't being accepted.	Ensure there are no extra spaces before or after your email address, and check capitalisation. If you are still unable to log in, it may be that a different email was registered — please contact us and we can verify the address on file.
I'm not sure which email address I registered.	Please call or email our team and we will be happy to confirm which address is associated with your policy, after completing a brief security check.
