Words and phrases in bold type

Some of the words and phrases we use in this handbook have a specific meaning, for example, when we talk about treatment.

We've highlighted these words in bold. You can find their meanings in the definitions.

You and your

When we use you and your, we mean the lead member and any family members covered by your plan.

We, us and our

When we use we, us or our, we are referring to AXA Global Healthcare (Hong Kong) Limited acting on behalf of AXA General Insurance (Hong Kong) Limited which is the insurance company that underwrites this product.

1.1 › Currency that applies to your plan

Your **plan** is available in USD only. We will pay you in the currency that you request when you make a claim.

The currency must be in our list of currencies we can pay in. To see the list please call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong).

We will use the exchange rate listed in the ICE foreign exchange rates on the day of your **treatment for out-patient and day-patient treatment**, and the day of your admission for **in-patient treatment**.

Where there are currency or exchange rate controls in place, we may not use the rate listed in the ICE foreign exchange rates. In these circumstances, we may contact you to request evidence of the exchange rate used when you purchased the currency and we will use that exchange rate to reimburse you.

1.2 › Countries where you are covered

Your cover applies for **treatment** you receive in any country excluding the USA.

If you have added the optional USA cover, your cover applies for **treatment** you receive in the USA too. Your membership statement will show if you have USA cover.

Country where you normally live

The **country of residence** is the country where the **lead member** lives or intends to live for most of the policy **year**. It will be shown on your certificate of insurance. You must tell us if there is any change to the **country of residence**.

1.3 › Your overall plan limit

1.5 › The main things we don't cover

There are a few things that your **plan** is not designed to cover. We have listed the most significant things here, but please check the detail in the rest of your handbook.

What are the key things my plan does not cover?

Your plan does not cover	Notes
✗ Treatment of medical conditions you had, or had symptoms of, before you joined	<p>Your plan is designed to cover necessary treatment of new medical conditions that arise after you join.</p> <p>» See 3.2 How your plan works with pre-existing conditions and symptoms of them</p>
✗ Non-emergency treatment you receive in the USA, unless you have added USA cover	<p>If you have added USA cover, your cover extends to treatment in the USA too.</p> <p>» See 1.2 Countries where you are covered and 1.7 Your cover for emergency treatment in the USA</p>
✗ Charges that are above the usual and customary charges for the treatment or service provided	<p>» See 1.6 Understanding what usual and customary charges are</p>
✗ The costs of arranging treatment	<p>Your plan does not cover your costs for arranging treatment, such as phone calls and travelling expenses.</p>

1.6 › Understanding what usual and customary charges are

We will only pay for charges for **treatment** or services that would usually and customarily be charged for that **treatment** or service in the country where you are receiving it. This means charges made by a **hospital, medical facility, medical practitioner, complementary practitioner, physiotherapist** or other medical professional.

We will use guidelines to decide if charges are within the usual and customary range. We will use guidelines published by a government health department or official medical body in the country where you are having **treatment** or using a service. We may also use anonymised claims data or data from our local partners as a benchmark when we pay or assess claims.

1.7 › Your cover for emergency treatment in the USA – for members who have not added USA cover

Your **plan** is designed to cover you for **treatment** outside the USA. It also gives you some emergency cover in the USA.

What cover do I have in the USA?

We will pay for **in-patient** or **day-patient treatment** needed for an emergency **medical condition** that you suffer suddenly while you are in the USA.

We will not pay if you have travelled to the USA to get **treatment**, or if you have travelled against medical advice that is listed by either; the Government of The Hong Kong Special Administrative Region via the outbound Travel Alert of the Security Bureau (SB) official website (www.sb.gov.hk/eng/ota) or the UK Foreign Office.

1.8 › Your cover for emergency evacuation and repatriation

Call us on +44 (0)1892 513 999 or Toll free on 800933241 (within Hong Kong) for emergency evacuation and repatriation.

We will cover the costs of emergency evacuation if:

- you are, or need to be, admitted as an emergency **in-patient**, and
- our appointed doctor and the treating doctor believe your current or nearest medical facilities are not able to provide the **treatment** you need.

We will cover the costs of repatriating you if we have agreed to cover your emergency evacuation.

We will not cover the cost of evacuating or repatriating you if you decide to travel elsewhere for **treatment** and we believe the nearest medical facilities are adequate for your **treatment**. This includes if you decide you want to travel back to the **country of residence** for your **treatment**.

What to do if you need emergency transportation in Africa

If you need medical **treatment** and cannot be treated in the area where you are, we can arrange for you to be transported. You will be taken to the nearest and most appropriate medical **facility**, in Africa, to receive medical **treatment**.

This service will be offered to members who have been advised by a medical professional that they need to be admitted to **hospital**. It will only be offered when it is clear that it is not medically appropriate to be treated where you are.

How emergency evacuation and repatriation cover works

If you are admitted as an emergency **in-patient** and you or the treating doctor believe that the local medical facilities are not adequate to treat you, ask somebody to call our emergency number.

We will appoint a doctor who will be able to assess the facilities and the evacuation or repatriation service detailed at the beginning of this section will apply.

What costs we will cover

If the doctor we appoint decides that the facilities are not adequate to treat you, we will cover the reasonable costs of either:

- evacuating you to a suitable medical **facility** for **treatment** in the country you are in; or
- evacuating you to a suitable medical **facility** in a different country for **treatment**.

When you are discharged from the medical **facility** you were evacuated to, we will cover the costs of repatriating you to one of the following:

- the place or **country of residence**
- a country that you hold a passport for.

We will cover these costs so long as we have agreed the method of transport to be used, and date and time of your evacuation or repatriation before it takes place.

We will also cover the cost of any necessary **treatment** given to you by our chosen evacuation agency while they are moving you.

Repatriation following death

If you die outside a country you hold a passport for, we will cover the cost of transporting your body back to a port or airport in:

- the **country of residence**, or
- a country you hold a passport for.

The relevant exclusions for emergency evacuation and repatriation also apply to repatriation following death.

Will other members of my family or friends be able to travel with me?

If the member who needs to be evacuated or repatriated is under 18, we will cover the additional reasonable and necessary transport and accommodation costs for someone to

accompany them. The accompanying person must be 18 or over. If the member who needs to be evacuated or repatriated is over 18, we may agree to cover these costs if we believe it is medically appropriate.

Once our member reaches their evacuation destination, we will not cover the accompanying person's further costs.

What cover do I have if a family member is evacuated or repatriated?

You only have cover if the **family member** is covered by a product arranged by the **AXA Global Healthcare Group** and underwritten by AXA General Insurance (Hong Kong) Limited. There is no cover for you if they are covered under any other policy.

If you are travelling away from home with a family member and they are evacuated or repatriated

We will pay for your additional reasonable and necessary transport and accommodation costs that result from the evacuation or repatriation. We will only do this if it is medically appropriate for you to travel with the **family member**.

If you are both at the location where you normally live and they have to be evacuated or repatriated from that location

We will pay for your additional reasonable and necessary transport costs that result from the evacuation or repatriation. We will only do this if it is medically appropriate for you to travel with the **family member**. We will not cover your accommodation costs.

What will happen to my travel ticket?

Any unused portion of the travel tickets belonging to you or anyone that we evacuate with you will immediately become our property. You must give the tickets to us.

1 Introduction to your plan continued

Can I choose to travel to a particular country for treatment?

You can choose to go to a particular country for **treatment**, but we will not cover the cost of travelling to that country. Once you are in that country, the terms of your **plan** apply as normal.

Exclusions that apply to your cover for emergency evacuation and repatriation

You are not covered for emergency evacuation or repatriation if any of the following apply:

- the **medical condition** does not need immediate emergency **in-patient treatment**
- the **medical condition** does not prevent you from travelling or working
- the **medical condition** is directly or indirectly caused by a deliberately self-inflicted injury, suicide or an attempt at suicide
- the **medical condition** is in any way connected with alcohol abuse, drug abuse or substance abuse
- the **medical condition** is a result of engaging in or training for any sport for which you receive a salary or monetary reimbursement, including grants or sponsorship (unless you only receive travel costs)
- the **medical condition** is a result of base jumping, cliff diving, flying in an unlicensed aircraft or as a learner, martial arts, free climbing, mountaineering with or without ropes, scuba diving to a depth of more than 10 metres, trekking to a height of over 2,500 metres, bungee jumping, canyoning, hang-gliding, paragliding or microlighting, parachuting, potholing, skiing off piste or any other winter sports activity carried out off piste
- the evacuation would involve moving you from a ship, oil-rig platform or similar off-shore location
- we have not approved the evacuation or repatriation first

- we have not been told about the **medical condition** within 30 days of the condition becoming an emergency (unless this was not reasonably possible)
- the **medical condition** is a result of nuclear, biological or chemical contamination, war (whether declared or not), act of foreign enemy, invasion, civil war, riot, rebellion, insurrection, revolution, overthrow of a legally constituted government, explosions of war weapons or any event similar to one of those listed
- the emergency occurs when you are on a leisure trip to a destination to which either the UK Foreign and Commonwealth Office or the Government of the Hong Kong Special Administrative Region via the outbound Travel Alert of the Security bureau (SB) official website either advises against all travel, or advises against all travel on holiday or non-essential business.

Limits on our liability under your cover for emergency evacuation and repatriation

We will not be liable for:

- any failure or delay in providing emergency evacuation or repatriation
- injury or death while you are being moved.

These limits do not apply if the failure or delay is caused by our negligence or the negligence of someone we have appointed to act for us.

2.2 › How we pay claims

Claims for each **year** are paid and benefit limits will be applied based on the date the **treatment** took place.

About our network of hospitals

We have arrangements for making direct payments with some **hospitals**.

You can check these in our network of hospitals, which you can find through your member hub.

The **hospitals** in the network of hospitals are continuously reviewed, so you should always check with us before arranging any **treatment**.

Paying claims for in-patient and day-patient treatment at a hospital where we have arrangements for making direct payments

If you have your **treatment** at a **hospital** listed in our network of hospitals, we will pay the **hospital** directly for **treatment** covered by your **plan**.

Always remember to contact us before you have your **treatment** so we can set up any direct payment arrangements with the **hospital** before your visit

Paying claims for in-patient and day-patient treatment at other hospitals

There are some **hospitals** who we won't pay for **treatment**. This is because they don't meet our billing criteria, or because we do not recognise them. You should check if we will pay the facility or **hospital** before you have your **treatment**.

The current list of unrecognised providers is available through your online portal at axaglobalhealthcare.com/customer or you can call us to check if we will pay a particular provider. We won't reimburse you for **treatment** you pay for yourself with one of these providers.

If you have **treatment** that you are covered for at a **hospital** that is not in our network of hospitals, we may be able to pay the **hospital** directly.

Always remember to contact us before you have your **treatment** so that we can get in touch with the **hospital** you've chosen and try to arrange to pay them directly for your **treatment**.

Paying claims for out-patient treatment

If you have **out-patient treatment**, most providers will ask you to pay for your **treatment** and then make your claim to us. However, some providers will allow you to have your **out-patient treatment** on the understanding that they will claim the cost back from us. You can search for an **out-patient** provider at: axaglobalhealthcare.com/customer.

You may be asked to show your AXA membership card and a separate form of photo ID when you have your **treatment**.

The **treatments** that we will cover directly at certain medical providers are:

- Medical practitioner/family doctor consultations
- specialist consultations
- prescription drugs and dressings
- minor **diagnostic tests**, for example x-rays or ultrasounds
- blood tests
- up to the first five sessions of physiotherapy (you will need to ask us to pre-approve further sessions)
- vaccinations.

If it turns out that your **treatment** is not covered, you will be asked to pay for the cost of the **treatment**.

How should I claim if I have already paid for my treatment?

If you want to claim for medical bills you have paid yourself, you must make your claim within six months unless that is not reasonably possible.

Please contact us on the claims number or at axaglobalhealthcare.com/customer and we will explain how to claim.

If you pay for any **treatment** yourself, always get a fully receipted invoice that shows how much you have paid for the **treatment**. You will need this if you want to claim, and for your own records.

If your **treatment** is being provided as part of a package, we will reimburse the cost of the package once all **treatment** has taken place. If your **treatment** provider is able to provide a breakdown of the **treatment** you have received to date, we may be able to reimburse some of the costs before the package of **treatment** is complete.

We may ask you to provide more information to support your claim, for example your card receipt or a copy of your statement. You must provide us with the information we ask for as soon as reasonably possible so that we can assess your claim.

We will pay you for the cost of the **treatment** we cover. If it turns out that your **treatment** or part of it is not covered, we will not reimburse you for the cost of the **treatment** that is not covered.

What happens if I receive a bill?

If you receive a bill, please contact us on the claims number.

We'll explain how to send the bill to us so that we can assess it.

What should I do if I need further treatment?

If you need further **treatment**, please call us first to confirm your cover.

What currency will I be paid in?

We will pay you in the currency that you request when you make a claim. The currency must be in our list of currencies we can pay in. To see the list please call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong) or check your AXA member hub.

2 Making a claim continued

We will use the exchange rate listed in the ICE foreign exchange rates on the day of your **treatment for out-patient and day-patient treatment**, and the day of your admission for **in-patient treatment**.

Where there are currency or exchange rate controls in place, we may not use the rate listed in the ICE foreign exchange rates. In these circumstances, we may contact you to request evidence of the exchange rate used when you purchased the currency and we will use that exchange rate to reimburse you.

2.3 › The information we may need when you make a claim

When you call us, we will explain if your **treatment** is covered.

Usually, this all happens very quickly. However, sometimes we need more detailed medical information, including access to your medical records.

What does ‘more detailed information’ mean?

We may need more detailed information in any of the following ways:

- We may need your **medical practitioner** to send us more details about your **medical condition**. Your **medical practitioner** may charge you for providing this information. This charge is not covered by your **plan**.
- We may also ask you to give us consent to access your medical records.
- In some cases, we may also ask you to complete additional forms. We will need you to complete these forms as soon as possible, but no later than six months after your **treatment** starts (unless there is a good reason why this is not possible).

- Very rarely, we may have to ask a **medical practitioner** to advise us on the medical facts or examine you. In these cases, we will pay for the **medical practitioner** to do this and will take your personal circumstances into account when choosing the **medical practitioner**.

What happens if I don’t want to give the information you’ve asked for?

If you do not give us information we ask for, or do not consent to our accessing your medical records when we ask, we will not be able to assess your claim and so will not be able to pay it. We may also ask you to pay back any money that we have previously paid to do with this **medical condition**.

2.4 › What if my treatment isn’t covered?

If your **plan** does not cover your **treatment**, we will explain this and also tell you if there’s any other way we can support you.

2.5 › What happens if I need emergency treatment?

If you need emergency **treatment**, you may not be able to call us before you have the **treatment**. Simply call us or ask someone to call us as soon as you can.

If you can, give your membership card to the **hospital** so that they can contact us whenever they need to.

3 How your plan works continued

3.1 > The types of drugs, treatments and surgery that are covered

Your plan covers you for established medical **treatments**. We call these **conventional treatments**.

There is no cover for any **treatment** or procedure that is experimental or that has not been established as being effective.

What do you mean by conventional treatment?

We define **conventional treatment** as **treatment** that is established as best medical practice in the country where the **treatment** is taking place. It must also be clinically appropriate in terms of necessity, type, frequency, extent, duration and the **facility** where the **treatment** is provided.

In addition, to meet our definition, it must have high quality clinical trial evidence proving it is effective and safe for the **treatment** of your **medical condition** (full criteria available on request).

Conventional treatment does not cost more than an equivalent **treatment** that delivers similar therapeutic or diagnostic outcome. It must not be provided or used primarily for the convenience or financial or other advantage of you or your **medical practitioner** or health professional.

Are there any additional requirements for drug treatments?

We will pay for the use of drugs that have been established as being effective. This means the drug must be licensed for use by either:

- the Medicines and Healthcare products Regulatory Agency (MHRA) if the **treatment** is to be provided in the **United Kingdom**; or
- the European Medicines Agency (EMA) if the **treatment** is to be provided in Europe, but outside of the **United Kingdom**; or
- the US Food and Drug Administration (FDA) if the **treatment** is to be provided outside Europe.

The drug must be used within the terms of its licence.

Are there any additional requirements for surgical treatments?

For a **surgical procedure** to be covered it must be listed in our Schedule of Procedures and Fees.

To get a copy of the schedule, go to axaglobalhealthcare.com/en/members/how-bills-are-paid or call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong).

For a **surgical procedure** please call us on +44 (0)1892 556 013 24 hours a day or toll free 800933241 (within Hong Kong) to see if it would be covered.

What happens if my medical practitioner says I need surgery that is not conventional treatment?

Our general position is that there is no cover for **treatments** or **surgery** that are not **conventional treatment**. We call this unproven treatment.

In some cases we will consider covering **surgery** not listed in our Schedule of Procedures and Fees. We must agree to the **treatment** before you have it, including what costs (if any) we will pay.

The **treatment** must be established and recognised as appropriate by an authoritative medical body. This means procedures and practices must have undergone appropriate clinical trial and assessment and be sufficiently evidenced in published medical journals.

What is not covered?

We will not pay for **treatment** that is not **conventional treatment** or which is experimental.

You are not covered for complications that arise as a result of authorised or unauthorised unproven or experimental **treatment**.

» To check whether we will agree to cover a treatment, please call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong) before you start treatment

3.2 › How your plan works with pre-existing conditions and symptoms of them

Your **plan** is designed to cover **treatment** of new **medical conditions** that begin after you join.

You may also be covered for **treatment** of conditions you were aware of or had already had when you joined. We call these conditions pre-existing conditions. Your cover for pre-existing conditions depends on the underwriting terms you joined on.

Your membership statement shows which underwriting terms you joined on. Here are the options:

- Fully underwritten (or full medical underwriting)
- Continuing medical exclusions
- Medical history disregarded

Definition of a pre-existing condition

A pre-existing condition is any disease, illness or injury that:

- you have received medication, advice or **treatment** for in the five years before the start of your cover, or
- you have experienced symptoms of in the five years before the start of your cover, whether or not the condition was diagnosed.

Underwriting terms

We have explained how each set of underwriting terms work and what cover you have for pre-existing conditions in the following panels.

If you are unsure about your cover for **treatment** of pre-existing conditions, it is always best to contact us.

Definition of fully underwritten or full medical underwriting

‘Fully underwritten’ means we asked you for details of your medical history, including any pre-existing conditions, before you joined. We then worked out your cover based on the information we received.

We list any special terms or exclusions on your membership statement – please check this carefully. For example, you may not have cover for something specific if you have had that condition in the past. Your statement will also show whether we can remove the exclusion after a period of time.

Definition of medical history disregarded

If you joined us on ‘medical history disregarded’ terms, we accepted any pre-existing conditions you might have had when you joined. We normally only do this if we are continuing cover from a different health insurer or from a company membership, or for a newborn baby who was added to your membership.

Definition of continuing medical exclusions

If you joined us on ‘continuing medical exclusions’ terms, we are carrying on your exclusions for **medical conditions** from your previous health insurer. This normally means we only asked you a few brief medical questions.

We listed any special terms or exclusions on your membership statement – please check this carefully. For example, you may not have cover for something specific if you have had that condition in the past. Your membership statement will also show whether we will remove the exclusion after a period of time.

3 How your plan works continued

If we carried on a moratorium from your previous healthcare insurance, the rules of your moratorium may be slightly different, and we may start the moratorium from when it originally began on your previous insurance. Your membership statement will show when your moratorium started.

What if you didn't tell us about a condition, symptom or treatment you knew about when we asked?

Whichever form of underwriting you joined on, we may have asked you some medical questions before agreeing your cover. We worked out your terms or your premium based on your answers. If you did not answer fully or accurately, even if this was by accident, we will not cover **treatment** for the condition.

This means we will not cover **treatment** for any conditions that you should have told us about when we asked, but that you either did not tell us about at all, or that you did not tell us the full extent of. This includes:

- any pre-existing or previous condition, whether you had **treatment** for them or not
- any previous **medical condition** that recurs
- any previous **medical condition** that you should reasonably have known about, even if you did not speak to a doctor.

Whenever you claim, we may ask your **medical practitioner** for more information to confirm whether you had any symptoms before you joined.

If we need to look at your medical history, we will need some time to do this before we can confirm whether we can cover your claim.

3.3 > How your plan works with conditions that last a long time or come back (chronic conditions)

Your **plan** covers both of these groups of conditions:

- unexpected illnesses and conditions that respond quickly to **treatment** (**acute conditions**)
- illnesses that recur, continue or require longer term **treatment** (**chronic conditions**).

Your cover for **in-patient treatment** of **chronic conditions** is limited to 120 days per admission.

What are acute conditions and chronic conditions?

Acute condition

An **acute condition** is a disease, illness or injury that is likely to respond quickly to **treatment** that aims to return you to the state of health you were in immediately before suffering the disease, illness or injury, or that leads to your full recovery.

Chronic condition

A **chronic condition** is a disease, illness or injury that has one or more of the following characteristics:

- It needs ongoing or long-term monitoring through consultations, examinations, check-ups or tests.
- It needs ongoing or long-term control or relief of symptoms.
- It requires your **rehabilitation**, or for you to be specially trained to cope with it.
- It continues indefinitely.
- It has no known cure.
- It comes back or is likely to come back.

3.4 › Who can provide your treatment

Your **plan** covers you for **treatment** that is provided by:

- **medical practitioners**
- **complementary practitioners**
- **physiotherapists**

We will pay for their usual and customary charges for the **treatment**.

We will pay for one surgeon and one anaesthetist for each operation unless we have agreed a different arrangement with you before your operation.

Your **policy** covers you for **inpatient** and **daypatient treatment** that is provided by **medical practitioners**.

There are some medical providers who we won't pay for **treatment**. These may be providers who don't meet our billing criteria, or we do not recognise. You should check if we will pay the medical provider before you have your **treatment**. The current list of unrecognised providers is available through your online portal at axaglobalhealthcare.com/customer or you can call us to check if we will pay a particular provider. We won't reimburse you for **treatment** you pay for yourself with one of these providers.

3.5 › Hospitals where you can have your treatment

The **hospital** where you have your **treatment** must be licensed as a medical or surgical **hospital** by the authorities in the country where the **hospital** is located.

Facilities that are not covered

Treatment at the following types of facilities is not covered even if they are registered as a **hospital**:

- health hydro
- spa
- nature cure clinic
- and other similar facilities

There are some other medical providers who we won't pay for **treatment**. These may be providers who don't meet our billing criteria, or we do not recognise. You should check if we will pay the facility or **hospital** before you have your **treatment**. The current list of unrecognised providers is available through your online portal at axaglobalhealthcare.com/customer or you can call us to check if we will pay a particular provider. We won't reimburse you for **treatment** you pay for yourself with one of these providers.

3.6 › Accommodation we will pay for at the hospital where you are treated

Your cover depends on whether you have the **semi-private room** option on your **plan**. Your membership statement will show if you have this option. If you don't then you will be eligible to stay in a **private room**.

Private room

If your **treatment** is covered by your **plan**, we will pay reasonable charges for a standard, single room with a bath or shower. We will also pay for your standard menu choices.

3 How your plan works continued

Optional semi-private room

If your membership statement states that you have the **semi-private room** option we will pay the following:

- Within Hong Kong: cover is provided for a **semi-private room** and corresponding **treatment** rates and charges when receiving **treatment** as **in-patient** or a **day patient**. Single, Deluxe or Executive rooms and suites are not covered.
- Outside of Hong Kong we will reimburse the cost of a single room with a bath or shower.

What is not covered at the hospital?

We will not pay for:

- upgrades to your room
- food or drink choices that are not on the standard menu
- costs that would not normally be charged to a person staying in a **private room** or **semi-private room**, including any uplift in fees charged for staying in a **private room** if you are staying in a **semi-private room**
- visitors' accommodation or meals
- special nursing unless we have agreed that it is necessary first.

3.7 > General restrictions

Written reports

We will not pay for the cost of any written reports.

Administration charges

We will not pay for any administration charges.

Treatment and referrals by family members

We will not pay for drugs or **treatment** if the person who refers you or treats you is a member of your family.

In-patient stays

We will not pay for more than 120 days per admission for **in-patient treatment**.

4 Your cover for specific conditions, treatment, tests and costs

There are particular rules for how we cover some conditions, **treatments**, tests and costs. This section explains what these are.

You should read this section alongside the other sections of this handbook as the other rules of cover will also apply, for example our rules about **pre-existing conditions**, **chronic conditions** and who we pay.

If you're at all unsure about the cover you have with your plan – even if you don't need to claim for it at the moment – please give us a call on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong).

We'll always be glad to explain your cover, and it's often quicker and easier than working it out from the handbook alone.

5 Managing your plan

- 5.1 › Adding a family member or baby
- 5.2 › Paying your excess
- 5.3 › What to do if you do not want your plan
- 5.4 › Continuing your cover
- 5.5 › Keeping us informed
- 5.6 › Making a complaint

5.1 › Adding a family member or baby

To add a **family member** or a new baby to your cover, call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong) and we will talk you through how it works.

Who you can add

You can apply to add the following **family members** to your **plan**:

- Your partner in marriage, in a civil partnership, or when living together permanently in a similar relationship.
(There may be certain circumstances where we cannot add a partner.)
- Any of your children or your partner's children.
- A new baby.

Adding a new baby

If you would like to add a new baby to your cover, you can do this from their date of birth so long as you call us within three months of their birth. We will not normally need details of their medical history.

There may be some limits to our cover if any of the following apply:

- either parent has had any kind of fertility treatment and the babies are a **multiple birth**;
- or
- the babies are a **multiple birth** and were born after assisted reproduction; or
- you have adopted the baby
- you add a baby within 10 months of your **plan** start date.

We have explained these limits in the following paragraphs.

Employer rules

Your employer may apply their own rules to when you can add a family member or baby. Please check with your HR department.

Babies born after fertility treatment, or following assisted reproduction, or who you have adopted, or who you add within 10 months of your policy start date

You can add a baby born after fertility **treatment**, or following assisted reproduction (such as IVF), or who you've adopted, to your **plan**. As with most health insurance, our cover for **treatment** has a few limits in these situations.

If you have adopted a baby, or if you have a **multiple birth** after fertility **treatment**, or following assisted reproduction:

- we may ask for more details of the baby's medical history
- we will not cover **treatment** in a Special Care Baby Unit or paediatric intensive care immediately after the birth
- we may add other conditions to the baby's cover. For example, we may limit their cover for pre-existing conditions.

We count fertility **treatment** as either parent taking any prescription or non-prescription drug or other **treatment** to increase fertility.

If you add a baby within 10 months of your **plan** start date:

- we will ask for details of the baby's medical history
- we may add other conditions to the baby's cover. For example, we may limit their cover for pre-existing conditions

5.2 › Paying your excess

Your membership statement will tell you if you have an excess and how much it is. This section tells you how to pay it.

If your plan has an excess

If your **plan** has an excess, you can see the amount on your membership statement. Here is how excesses work:

- We will take your excess off the amount covered by your **plan** for the first claim for each person in each **year**. For example, if the claim was covered for \$800, and the excess was \$100, we would pay \$700.
- If your claim is for a **treatment** that has a limit we will apply the limit before we take the excess off.
- We count the **treatment** costs for each **year** according to the date the **treatment** took place.
- Even if **treatment** costs less than your excess, please tell us about it so we can make sure we take this into account if you claim again that **year**.
- The excess applies per person. So if two people covered by your **plan** make a claim, we will take the excess off both their claims.
- It may take several claims before the full amount of the excess is paid.
- Once the full amount of an excess has been paid in a **year**, we will not take it off any further claims in that **year**.
- It does not matter whether you claim several times for the same **medical condition**, or for several **medical conditions**.
- The excess applies for each **year**. This means that if you incur costs during this **year**, we will take the excess off what we pay for your claim. If you then incur more costs in the next **year**, even if it's for the same condition, we will take the excess off that claim.
- If your claim goes over your renewal, we will take the excess off the amount we pay for your claim before renewal, then we will take the excess off the amount we pay for your claim after renewal.

- If you have any questions about how your excess works, please call us on +44 (0)1892 556 013 or toll free on 800933241 (within Hong Kong)

Claims and services that you do not have to pay an excess for

Your plan

The cover is provided under an agreement with your **company** who selects the level of benefits included.

Your **plan** is for one **year**.

We will provide you with the cover set out in your **plan**.

We will pay for covered costs incurred during a period for which the premium has been paid.

Your **treatment** is provided through a separate agreement between you and your **treatment** provider. The date(s) you receive your **treatment** is part of that agreement.

We will confirm the date that the **plan** starts and ends, who is covered, and any special terms that apply.

If the **lead member** stops working for the employer that is paying for your **plan**, your cover will end.

Renewal

Before the end of each **plan year**, we will contact your employer to tell them the terms the **plan** will continue on if the **plan** is still available. We will renew the **plan** on the new terms unless your employer asks us to make changes or tells us they wish to cancel.

What happens if your employer ends their company healthcare scheme with us

If your employer ends their **company healthcare scheme** with us, your cover will end.

You may be able to take out your own **plan** with us. We can explain your options to you at the time.

» [See also 5.4 Continuing your cover](#)

Providing us with information

Whenever we ask you to give us information, you will make sure that all the information you give us is sufficiently true, accurate and complete for us to be able to work out the risk we are considering. If we later discover that it is not, we can cancel the plan or apply different terms of cover in line with the terms we would have applied if the information had been presented to us fairly.

Our right to refuse to add a family member

We can refuse to add a **family member** to the **plan**. We will tell the **lead member** if we do this.

Subrogated rights

We, or any person or company that we nominate, have subrogated rights of recovery of the **lead member** or any **family members** in the event of a claim. This means that we will assume the rights of the **lead member** or any **family members** to recover any amount they are entitled to that we have already covered under this **plan**.

For example, we may recover amounts from someone who caused injury or illness, or from another insurer or a state healthcare provider.

The **lead member** must provide us with all documents, including medical records, and any reasonable assistance we may need to exercise these subrogated rights.

The **lead member** must not do anything to prejudice these subrogated rights.

We reserve the right to deduct from any claims payment otherwise due to you an amount that will be recovered from a third party or state healthcare provider.

What happens if you break the terms of your plan

If you break any terms of your **plan** that we reasonably consider to be fundamental, we may do one or more of the following:

- refuse to pay any claims;
- recover from you any loss caused by the break;
- refuse to renew your **plan**;
- impose different terms to the cover;
- end your **plan** and all cover immediately.

If you (or anyone acting on your behalf) claim knowing that the claim is false or fraudulent, we can refuse to pay that claim and may declare your **plan** void, as if it never existed. If we have already paid the claim we can recover what we have paid from you.

If we pay a claim and the claim is later found to be wholly or partly false or fraudulent, we will recover what we have paid from you.

What happens if we make a payment to you in error

If we transfer money to you in error or accidentally overpay you, you must return it to us immediately. If you become aware of an accidental payment or overpayment, you must let us know straight away so that we can arrange for the money to be returned to us.

Our right to make changes to your plan

We can change all or any part of your **plan** from any renewal date. We will give you reasonable notice of changes to your **plan**.

International economic sanctions

We will not do business with any individual or organisation that appears on an economic sanctions list or is subject to similar restrictions from any other law or regulation. This includes sanction lists, laws and regulations of the European Union, **United Kingdom**, United States of America or under a United Nations resolution.

We will immediately end cover and stop paying claims on the **plan** if you or a **family member** are directly or indirectly subject to economic sanctions, including sanctions against your country of residence.

We will do this even if you have permission from a relevant authority to continue cover or subscription payments under a **plan**. In this case, we can cancel the **plan** or remove a **family member** immediately without notice, but will then tell you if we do this.

If you know that you or a **family member** are on a sanctions list or subject to similar restrictions you must let us know within 7 days of finding this out.

Law applying to your plan

You and we irrevocably agree and submit to the exclusive jurisdiction of the courts of Hong Kong Special Administrative Region of the People's Republic of China.

Your data and medical practitioners' fitness to practise

Contacting you about other products and services

We and other members of the **AXA Group** may use the information you have provided to tell you about other products and services, such as special offers and healthcare information. These contacts may be by letter, phone, email or mobile message.

6.4 › What to do if somebody else is responsible for part of the cost of your claim

You must tell us if you are able to recover any part of your claim from any other party. Other parties would include:

- an insurer that you have another insurance plan with
- a state healthcare system
- a third party that has a legal responsibility or liability to pay.

We will pay our proper share of the claim.

Paying only our proper share helps us to keep the cost of premiums down.

If another party is responsible for part of your claim, it may mean they will pay for costs you would otherwise have to pay yourself, such as your excess on this **plan** or private treatment not covered by this **plan**.

6.5 › What to do if your claim relates to an injury or medical condition that was caused by another person

You must tell us as quickly as possible if you believe someone else or something (ie a third party) contributed to or caused the need for your **treatment**, such as a road traffic accident, an injury or potential clinical negligence.

This does not change the benefits you can claim under the **plan** (your “Claim”) and also means you can potentially be repaid for any costs you paid yourself, such as your excess or if you paid for private treatment that wasn’t covered by the **plan**. Where appropriate, we will pay our proper share of the Claim and recover what we pay from the third party. We may use external legal, or other, advisers to help us do this.

Where you bring a claim against a third party (a “Third Party Claim”), you or your representatives must:

- include all amounts paid by us for the **treatment** relating to your Third Party Claim (our “Outlay”) against the third party;
- include interest on our Outlay at 8% p.a;
- keep us fully informed on the progress of your Third Party Claim and any action against the third party or any pre-action matters;
- agree any proposed reduction to our Outlay and interest with us prior to settlement. If no such agreement has been sought we retain the right to recover 100% of our Outlay and interest directly from you;
- repay any recovery of our Outlay and interest from the third party directly to us within 21 days of settlement;
- provide us with details of any settlement in full.

In the event you recover our Outlay and interest and do not repay us this recovered amount in full we will be entitled to recover from you what you owe us and the **plan** may be cancelled in accordance with ‘What happens if you break the terms of the **plan**’.

Even if you decide not to make a claim against a third party for the recovery of damages we retain the right (at our own expense) to make a claim in your name against the third party for our Outlay and interest. You must co-operate with all reasonable requests in this respect.

The rights and remedies in this section are in addition to and not instead of rights or remedies provided by law.
